

Multi Purpose

Medium Duty

Nitrile impregnated coating on a jersey liner

- Supersedes the classic leather general purpose glove in medium-duty applications. More flexible, more comfortable, far more hard-wearing.
- High performance nitrile impregnation. Offers superior resistance to abrasion and good protection against snags, cuts and puncture. Effectively repels grease, oil and dirt.
- Soft, flexible jersey lining. Offers a close, comfortable fit while safely cushioning the hand. Absorbs perspiration, keeping the hand dry and comfortable for longer.
- Excellent dry grip. Makes handling quicker and easier.
- Safely machine-washable: will not shrink, stiffen or lose its shape.
- More hygienic and longer lasting - can safely and economically be re-used.

Industries

- Automotive
- Metal fabrication

Applications

- Handling metal sheets & panels
- Assembly & inspection of components
- Press injection molding
- Chassis assembly, body trimming
- Handling materials with sharp or rough edges
- Adjusting panels parts components

Previously known as: Hyd-Tuf™52-547

Key Features

- High performance nitrile impregnation offering good resistance to abrasion
- Soft and flexible jersey liner offers great comfort by absorbing the hand's perspiration while safely cushioning the hands
- Excellent dry grip
- Compliant with FDA food handling requirements

Vulcanization Chemical Accelerators

- N-Cyclohexyl-2-benzothiazole sulfenamide
- Natural rubber proteins
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

Performance Standards & Regulatory Compliance

REACH Compliant
