C (0-4)	Tear resistance	Performance level 2		hazards and classes. The results apply only for the
D (0-4)	Puncture resistance	Performance level 1	A.B.C.D.	model classes, not for the
EN 511 – Prote	protection levels (classes)			
a (0-4)	Resistance to convective cold	Performance level X		The protection levels (classes) are determined
b (0-4)	Resistance to contact cold	Performance level 2	(\$\$)	based on the tests carried out
C (0 or 1)	Water penetration	Performance level X	a.b.c.	in accordance with the conditions determined in the
EN 420 - prote	valid standards specified here. As for the gloves with			
(1-5)	Dexterity	Performance level 5		two or more layers it does not
$,,X''=test\ not$	necessarily reflect the properties of the outer layer.			

Please note: The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use for manipulating hot or heated objects, toxic chemicals or greasy objects. Gloves material may be damaged by oil, mineral oil, greasy and solvent organic. Not resistant to soaking. Gloves can when soaked lose their insulating properties.

It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions. Maintenance, lifetime: After use, make sure the gloves are removed from all pollutants. To prolong the life of the glove. The gloves are designed for single or short-term use only. Damp gloves should be dried out at a room temperature. Wash in hand, max wash bath temperature 30 °C. Any dirt should be brushed out using a soft brush, nitrile Wipe with a damp cloth. Do not clean chemically, bleach, dry in a tumble dryer, or iron. The gloves that are worn through, have holes burned through, or are hard must be replaced. We are not responsible for possible reduction of the protective function caused by improper maintenance. Under suitable storage conditions, shelf life is 2 years.

Storing and transport: Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package.

Accessories: The product is supplied without accessories.

Dangerous admixtures: The gloves contain allergen - Latex. They may cause an allergic reaction if used by sensitive people, including anaphylactic shock. If skin irritation or allergic reaction contact, do not use gloves and seek medical advice.

Disposal: Dispose of used gloves with respect of the soiling level according to the applicable disposal regulations and the regulations of the local authority. Unused gloves can be disposed of with domestic waste.

The Notified Body that performs conformity assessment:

Notified Body No. 0075, CTC 4 rue Hermann Frenkel 69367 Lyon cedex 07 France.

The Declaration of Conformity can be found here: www.canis.cz; for individual products, in the bar "Documents to download".
