Information for users

EN 420+A1:2009 EN 388:2016

Read the instructions carefully.

PPE CATEGORY II

In accordance with the requirements of the Regulation (EU) 2016/425

Design: "ALVAROS" Code: 3410 002 260 XX Size: 7, 8, 9, 10	Product: Working Gloves - 5-finger, seamless polyester knit, palm and fingers covered with Nitrile, sandy finish for better grip.						
	Design:	"ALVAROS"	Code:	3410 002 260 XX	Size:	7, 8, 9, 10	

Material: 100 % Polyester, coated: Nitrile.

Intended use: It serves as hand protection against pollution and protection in the working environment when working with minor mechanical hazards (abrasion, dirt...), for example: <u>assistant</u> construction works, logistics, light industry, warehouse handling, agriculture. Put the gloves on dry, clean hands.

The gloves were te	sted in accordance with EN 388 - m	er, the higher the protection factor)
A (0-4)	Abrasion resistance:	The protection works only against the specified
B (0-5)	Blade cut resistance (coupe test)	hazards. Do not use the gloves as a protection against different hazards and classes. The results apply only for the model classes, not for the protection levels (classes). The protection levels (classes) are determined based on the tests carried out in accordance with the conditions determined in the valid standards specified here. As for the gloves with two or more layers it does not necessarily reflect the properties of the outer
C (0-4)	Tear resistance	
D (0-4)	Puncture resistance	
E (A-F)	Cut Resistance (TDM)	
F(P/X) or nothing	Impact protection	
EN 420 - protective	e gloves (general requirements)	
(1-5) De	xterity	
$,,X^{\prime\prime} = test not perform$	med or not applicable	layer. The protection levels (classes) apply only
		for new gloves not washed or cleaned.

Please note: The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use the gloves for handling with sharp objects, flames or hot or heated objects, toxic chemicals or greasy objects. Not resistant to soaking.

It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines. Due to the dulling of the blade during the cut resistance test (B) the results of the cut tests are only indicative, while the TDM (E) cut resistance test is the result of the reference design. The gloves comply with the requirements for puncture resistance. However, they are not meant for protection against thin, sharp objects, such as injection needles. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

Maintenance, lifetime: After use, make sure the gloves are removed from all pollutants. To prolong the life of the glove. The gloves are designed for single or short-term use only. Damp gloves should be dried out at a room temperature. Wash in hand, max wash bath temperature 30°C. Any dirt should be brushed out using a soft brush, nitrile Wipe with a damp cloth. Do not clean chemically, bleach, dry in a tumble dryer, or iron. The gloves that are worn through, have holes burned through, or are hard must be replaced. We are not responsible for possible reduction of the protective function caused by improper maintenance. Carry them preferably in original package. Under suitable storage conditions, shelf life is 2 years.

Storing and transport: Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package.

Accessories: The product is supplied without accessories.

Dangerous admixtures: The gloves contain allergen - Latex. They may cause an allergic reaction if used by sensitive people, including anaphylactic shock. If skin irritation or allergic reaction do not use gloves and contact your doctor immediately.

Disposal: used gloves can be contaminated with infectious materials or other dangerous substances - dispose of them in compliance with the Act on Waste.

The Notified Body that performs conformity assessment:

Notified Body No. 0075, CTC 4 rue Hermann Frenkel 69367 Lyon cedex 07 France.

The Declaration of Conformity can be found here: www.canis.cz; for individual products, in the bar "Documents to download".
