POPIS

Lightweight occupational shoes in a modern, sporty design. The upper of the shoe is made of breathable textile. The oil-resistant non-slip sole is made of double-density polyurethane and ensures maximum safety at every step. In addition, the shoes are equipped with a comfortable inner insole, which guarantees comfort while walking. The absorption of energy in the heel area absorbs shocks and reduces the feeling of fatigue in the feet. The footwear does not contain metal parts and is therefore an ideal model for the interior or for areas equipped with a safety frame. Thanks to the modern materials used in the production of this model, the total weight of the shoes does not exceed 410 g (half-pair size 42). Minimalist design and modern color combinations will go great with most of Cerva's workwear collection.
