POPIS

Safety sandal with non-metallic safety toe cap and anti-puncture insert of type "S". Double-density PU/PU outsole delivers high standard of comfort while not compromising on durability. Upper is made from innovative material PUTEK which ensures even better breathability than leather, together with great endurance and high anti-wear resistance. All of these features make LINDLAU S1PS a perfect fit for everyone, who seeks for breathable, comfortable and durable modern safety shoes. It is a great solution for indoor jobs thanks to ESD feature but can be utilized for summer outdoor jobs as well.
