max performance level 5

Tear resistance: 2

max performance level 4

Puncture resistance: 1

max performance level 4

TDM cut resistance: x - not tested, Test method appears not to be suitable for the glove design/material dexterity: 5

01080262 EMBERIZA - article size production date (month/year)

EN 388:2016+A1:2018 - standard and year of issue

Maintenance and usage of safety gloves: Protect gloves against radiant heat, do not expose to organic solvents and their vapours, lubricants, fats, mineral oils and water. Remove rough dirt with a brush and let gloves dry freely at room temperature after use. Gloves cannot be machine washed or dry cleaned.

Warning: Gloves must not be used if there is a risk of them being caught by moving machine parts. Protection features are only applied on palm section of glove. Always use correct glove size and examine gloves condition before every use. Never use worn, hardened or in any other way damaged gloves. Gloves use may cause some skin irritation and allergic reaction to people with very sensitive skin, in such case do not use gloves any further.

Transport and storage: Gloves are to be transported in original packaging or in a plastic cover, it is necessary to store them in dry, cool conditions and away from direct sunlight. Shelf life is 5 years from the date of manufacture in suitable conditions.

The EU type certificate have been issued by a notified body No. 2369 VIPO a.s., Gen. Svoboda 1069/4, Partizánske, Slovak Republic. The declaration of conformity is available on the www.cerva.com/conformity.htm
